Cobre Montana to change its name to Lithium Australia NL

Cobre Montana NL (ASX:CXB) will change its name to Lithium Australia NL (ASX:LIT) subject to shareholder approval scheduled for Wednesday 15 July 2015.

ABOUT COBRE MONTANA

Cobre has a technical alliance with Strategic Metallurgy Pty Ltd to commercialise disruptive lithium extraction technology based on the recovery of lithium from micas; minerals not generally used as a source of lithium chemicals.

Cobre has a non-binding Heads of Agreement with European Metals Holdings Limited to process lithium mineralisation at Cinovec in the Czech Republic on a 50/50 JV basis. Cinovec contains abundant lithium micas and is one of the world's largest hard-rock lithium occurrences.

In addition, Cobre has strategic alliances with Pilbara Minerals Limited, Focus Minerals Limited and Tungsten Mining NL, to investigate lithium and rare metals in prospective locations of Western Australia close to well-developed infrastructure. Cobre also has lithium exploration assets near Greenbushes and Ravensthorpe in Western Australia. Cobre is also evaluating other European opportunities.
