Disclaimer

The information in the Research Report is produced by a third party (Third Party Information). It may contain information about the activities of Lithium Australia NL but it does not purport to be a complete description of LIT and/or its various business activities. No representation or warranty, express or implied, is made by any person including Lithium Australia NL or its directors, officers, employees, advisers, agents or affiliates as to the fairness, accuracy, completeness, or correctness of the information, opinions and conclusions contained in this Third Party Information, or as to the reasonableness of any assumptions, forecasts, prospects or returns contained in, or implied by, this Third Party Information or any part of it. Lithium Australia NL assumes no liability and has no obligation to tell recipients if it becomes aware of any inaccuracies in or omissions from Third Party Information.

Except for statutory liability which may not be excluded, no responsibility is accepted by Lithium Australia NL or any of its directors, officers, employees, advisers, agents or affiliates for any loss or damage howsoever occurring (including through negligence) resulting from the access, use or reliance upon any Third Party Information by any person, and any such access, use or reliance is solely at your own risk. You are responsible for forming your own opinions and should seek your own independent professional advice in relation to Third Party Information. In particular, you are cautioned not to place undue reliance on any forward-looking statements, forecasts or views as to prospects in any Third Party Information, as there can be no assurances that actual outcomes will not differ materially from such forward-looking statements.

About Lithium Australia NL

LIT is a dedicated developer of disruptive lithium extraction technologies and 100% owner of the SiLeach[®] process for the recovery of lithium from all silicates. LIT has strategic alliances with, and investments in, a number of companies, potentially providing it with access to a diversified lithium mineral inventory. LIT aspires to create a union between resources and the best available technology, and in so doing establish a global lithium processing business.
